

OMA's November 2007 total passenger traffic increases 20.6%

- Domestic traffic jumps 24.4%
- International traffic grows 4.1%

Monterrey, Mexico, December 10, 2007—Mexican airport operator Grupo Aeroportuario del Centro Norte, S.A.B. de C.V., known as OMA, reports that total passenger traffic (terminal passengers) at its 13 airports was 1.2 million in November 2007, an increase of 20.6% compared to November 2006.

Domestic traffic in November 2007 totaled 1,003,154 passengers, an increase of 24.4% compared to the prior year. Ten of our airports reported growth in domestic passenger traffic as a result of new routes and frequencies opened by the new airlines (Aladia, Alma, Avolar, Interjet, VivaAerobus, and Volaris). During November, Volaris opened routes from Ciudad Juarez to Guadalajara and Toluca; VivaAerobus, Aerolitoral and Aeromar opened routes from Monterrey to Cozumel, Puebla, and San Luis Potosí, respectively. Passenger traffic at the Zacatecas airport decreased 15.5%, as a result of the suspension of operations of Líneas Aéreas Azteca on March 26, 2007, and the beginning of proceedings to revoke its concession, announced on October 10, 2007.

International traffic totaled 193,078 passengers in November 2007, a 4.1% increase compared to November 2006. The Monterrey, Culiacán, Chihuahua, and San Luis Potosí airports recorded the most significant increases. The Acapulco airport was affected by a reduction in charter flights.
