

OMA's October 2007 total passenger traffic increases 20.9%

- Domestic traffic jumps 23.6%
- International traffic grows 6.7%

Monterrey, Mexico, November 8, 2007—Mexican airport operator Grupo Aeroportuario del Centro Norte, S.A.B. de C.V., known as OMA, reports that total passenger traffic (terminal passengers) at its 13 airports reached 1.2 million in October 2007, an increase of 20.9% compared to October 2006.

Domestic traffic in October 2007 totaled 999,410 passengers, an increase of 23.6% compared to the prior year. Eleven of our airports reported growth in domestic passenger traffic as a result of new routes and frequencies opened by the new airlines (Aladia, Alma, Avolar, Interjet, VivaAerobus, and Volaris), and by some traditional airlines. Passenger traffic at the Zacatecas airport decreased 20%, as a result of the suspension of operations of Líneas Aéreas Azteca on March 26, 2007. On October 10, 2007, the Department of Civil Aviation (DGAC) announced the beginning of proceedings to revoke the concession of Líneas Aéreas Azteca.

International traffic totaled 161,049 passengers in October 2007, a 6.7% increase compared to October 2006. Ten of our airports reported growth in international passenger traffic as a result of new flight frequencies and higher occupancy rates on international flights. The Monterrey, Zihuatanejo, Mazatlán, Culiacán, San Luis Potosí, and Chihuahua airports recorded the most significant increases. The decrease in the frequency or the suspension of some routes operated by scheduled international airlines affected international traffic at the airports at Acapulco, Tampico, and Durango.
