

OMA's September 2007 total passenger traffic increases 23.8%

- Domestic traffic jumps 26.6%
- International traffic grows 8.3%

Monterrey, Mexico, October 10, 2007—Mexican airport operator Grupo Aeroportuario del Centro Norte, S.A.B. de C.V., known as OMA, reports that total passenger traffic (terminal passengers) at its 13 airports reached 1.1 million in September 2007, an increase of 23.8% compared to September 2006.

Domestic traffic in September 2007 totaled 912,602 passengers, an increase of 26.6% compared to the prior year. Twelve of our airports reported growth in domestic passenger traffic as a result of new routes and frequencies opened by the new airlines (Aladia, Alma, Avolar, Interjet, VivaAerobus, and Volaris) and the performance of some traditional airlines. The suspension of operations of Líneas Aéreas Azteca on March 26, 2007 affected traffic at the Zacatecas airport.

International traffic totaled 143,262 passengers in September 2007, an 8.3% increase compared to September 2006. Ten of our airports reported growth in international passenger traffic as a result of new flight frequencies and higher occupancy rates on scheduled international airlines. The Monterrey, Mazatlán, and Chihuahua airports recorded the most significant increases. The decrease in the frequency of some routes operated by scheduled international airlines affected international traffic at the airports at Acapulco, Zihuatanejo, and Tampico.
